St. Paul’s will follow most recent guidelines from local and state government and public health departments.

St. Paul’s will provide hand sanitizer station at entryways to rental space.

A St. Paul’s representative will be sanitizing common touch points periodically throughout the event: door handles, faucets, restrooms, railings, etc.

Per public health and governmental recommendations, St. Paul’s requests that RENTER recommend the following measures to their guests:

1. Maintain at least 6 feet separation from other guests not within the same household. If such distancing is not feasible, other measures such as face covering when not sitting at the table, hand hygiene, cough and sneeze etiquette, cleanliness, and sanitation should be rigorously practiced.

2. Provide masks and additional hand sanitizer for guests around venue (maybe at guest tables and sign in table).

Seating
St. Paul’s will set up tables with chairs to seat 8 people or less and recommend that seating at any single table be restricted to guests living under the same roof. Highboy tables should be for no more than 2 guests.
Tables will be spaced 6’ apart (based on chair separation)
St. Paul’s recommends that place settings be empty without flatware, glassware, silverware, and napkins.

Food/Drink
Caterers should be aware and practice current Covid-19 guidelines set forth by the state and local health departments.
